

ABC Technologies – Employee Handbook

Document Information

Document Owner: Human Resources Department

Effective Date: 1 April 2026

Version: 3.1

Applies To: All full-time and part-time employees of ABC Technologies

1. About the Company

ABC Technologies is a software services company headquartered in Bengaluru, with offices in Hyderabad and Pune. The company designs and builds digital products for clients in banking, retail, and healthcare. Our teams work closely with clients, so professionalism, reliability, and clear communication are expected from every employee.

2. Purpose of the Handbook

This handbook explains the everyday policies, expectations, and procedures that apply to all employees. It is a summary of key rules and does not replace the detailed policies listed in this handbook, such as the Leave and Attendance Policy and the Workplace and Information Security Policy. If there is any difference between this handbook and a detailed policy, the detailed policy applies for that specific topic. Employees are responsible for reading and following this handbook. It is reviewed by Human Resources once every year.

3. Working Hours

Standard working hours are 9:00 AM to 6:00 PM, Monday to Friday. Employees work eight hours per day, which equals 40 hours per week. Each employee receives a one-hour lunch break, which is not counted as working time. Saturdays and Sundays are weekly offs unless a team manager has approved a different schedule in writing.

4. Attendance and Punctuality

Employees must mark their attendance on the company attendance portal by 9:30 AM each working day. An employee who arrives after 9:30 AM is recorded as late. Three late arrivals in one calendar month result in a written warning. Employees who expect to be late or absent must inform their reporting manager before the start of their shift. Attendance records are reviewed monthly by HR.

5. Probation Period

All new employees serve a probation period of six months from their date of joining. During probation, the reporting manager reviews the employee's progress and submits a probation assessment to HR. If the employee meets expectations, a confirmation letter is issued at the end of the probation period. The probation period may be extended by up to three months only with written approval from the Head of Department and HR.

6. Employee Identification

Every employee receives an identification card on the first day of employment. The card must be worn visibly at all times within company premises. If an ID card is lost or damaged, the employee must report it to the HR Helpdesk within 24 hours. A replacement card is issued within three working days. The first replacement is free of charge.

7. Workplace Conduct

All employees are expected to treat colleagues, clients, and vendors with respect. Communication must be professional in meetings, emails, chat messages, and documents. Behavior that disrupts the workplace, such as shouting, personal insults, or deliberately excluding colleagues, is treated as misconduct. Employees must follow instructions from their managers, unless an instruction is unlawful or clearly unsafe.

8. Anti-Harassment and Respectful Workplace

ABC Technologies has zero tolerance for harassment, discrimination, or bullying. Harassment includes unwelcome comments or behavior based on gender, religion, caste, age, disability, or any other personal characteristic. Employees can raise a complaint with the HR Helpdesk or with any member of the Anti-Harassment Committee. Complaints should be raised within 7 days of the incident where possible. Each complaint is investigated within 30 working days. Retaliation against anyone who reports a concern is strictly prohibited and is treated as serious misconduct.

9. Dress Code

Employees must wear business casual clothing on regular working days. Formal attire is required when attending client meetings or representing the company at external events. Casual clothing is permitted on Fridays, except on days when employees are scheduled to visit a client site. Clothing must be clean, neat, and suitable for a professional environment.

10. Confidentiality

Employees must not disclose confidential company information to anyone outside the company without written approval. Confidential information includes client data, source code, system designs, pricing, business plans, employee salaries, and personal employee records. Every employee signs a confidentiality agreement on the first day of employment. This obligation continues after employment ends. Confidential documents must be stored only in approved company systems.

11. Company Equipment

Employees may be issued a company laptop and other equipment for work purposes. The employee is responsible for the care and safe use of all company equipment. If a company laptop is lost or stolen, the employee must report the incident to the IT Service Desk and the HR Helpdesk immediately, and no later than 2 hours after discovering the loss. If the laptop was stolen, the employee must also file a police complaint and provide a copy to HR.

Equipment damaged through negligence may be charged to the employee. All company equipment must be returned on or before the last working day.

12. Acceptable Use of Company Technology

Company devices, internet access, and email accounts are provided for business use. Limited personal use is allowed if it does not affect work or security. Employees must not access illegal content, install unapproved software, share their accounts with others, or use company systems to harass others. Detailed rules are described in the Workplace and Information Security Policy.

13. Password and Account Security

Employees are responsible for protecting their login credentials. Passwords must be at least 12 characters long and must be changed every 90 days. Passwords must never be shared with colleagues, managers, or vendors. Multi-factor authentication must be enabled on all company accounts where it is available. Full security requirements are described in the Workplace and Information Security Policy.

14. Performance Reviews

Performance reviews are conducted twice per year. The mid-year review takes place in June, and the annual review takes place in December. Before each review meeting, the employee completes a self-assessment. The reporting manager then rates performance on a scale of 1 to 5 across agreed goals, teamwork, and professional behavior. Employees receive written feedback after each review.

15. Promotion and Career Development

Promotions are considered during the annual review cycle. An employee must have completed at least 12 months in the current role to be considered for promotion. Each employee works with their manager to prepare a career development plan that sets learning goals and future responsibilities. Promotion decisions are based on performance, skills, and business needs.

16. Training and Learning

All employees must complete the annual Information Security Awareness training and the Code of Conduct training. New employees complete an onboarding program during their first two weeks. Employees may also request certification courses that support their role. Details about learning reimbursement are described in the Employee Benefits and Perks document.

17. Resignation and Notice Period

The notice period for all employees is 30 days, both during and after the probation period. A resignation must be submitted in writing to the reporting manager and the HR Helpdesk. During the notice period, employees must complete handover tasks and return all company

equipment. Each departing employee attends an exit interview with HR. Unused annual leave is handled according to the Leave and Attendance Policy.

18. Disciplinary Action

ABC Technologies follows a structured disciplinary process. Depending on the seriousness of the violation, actions may include a verbal warning, a written warning, a final warning, or termination of employment. Serious misconduct, such as fraud, theft of data, or deliberate harm to company systems, may result in immediate termination. Before a formal action is taken, the employee is informed in writing and may respond within 5 working days.

19. Contacting HR

Employees can contact the HR Helpdesk through the internal HR Portal or by calling internal extension 4100. Requests are usually answered within 2 working days. Urgent matters, such as workplace safety concerns, should be reported to the HR Helpdesk by phone.
